

PROPOSED MISSION SUPPORT REQUEST FORMULA

2026-2027 Fiscal Year

10% of regular giving

The North Carolina Synod Council recommends the Mission Support Formula for Fiscal Year 2026-2027 at 10% of a congregation's regular giving.

It is Synod Council's goal to help congregations move toward proportionate giving based on resources. Realizing that for many congregations this growth process will take years, we propose the 2026-2027 formula. If your giving is below the current formula, we encourage you to take intermediate steps of increasing annually by 1% until you reach the 10% goal.

The official 2026-2027 request, based on the approved formula, will be calculated by the synod office staff, and mailed to congregations in October each year.

We give thanks for the generosity that allows the body of Christ to do more together than we could individually.
